

EXPLORE

**Discover more.
With less weight.**

The HEINE OMEGA 600 indirect ophthalmoscope

High tech. Low weight.

THERE IS SO MUCH TO DISCOVER INSIDE THE EYE.

And often tiny details can make a big difference. That's why we provide you with the best optics, the sharpest image, and reliable colours. Along with the capability to explore the whole retina, including the far periphery. This way, the optimal care or treatment for the patient can be determined, based on a diagnosis that is as accurate as possible. This is why we've developed the HEINE OMEGA 600, based on valuable physicians' input.

THE HEINE OMEGA 600 IS THE LIGHTEST HIGH-END INDIRECT OPHTHALMOSCOPE.

The extremely compact lithium polymer battery is a true lightweight that delivers absolute top performance. With all cables and electronics integrated in the headband, this ophthalmoscope is the state of the art. So discovering more has been made even more comfortable. Try the HEINE OMEGA 600 for yourself. But be careful: once you put it on, you will never want to take it off ...

See when you can't see.

HEINE visionBOOST.

More confidence in the diagnosis when examining patients with media opacities. Proven to deliver up to 20 % better view of the retina in patients with cataracts*: no matter what circumstances – always the ideal working brightness for both the patient and the user.

Common view of a retina through a cataract**

View of a retina through a cataract with visionBOOST**

Up to now, when the front of the eye was clouded by media opacities, such as a cataract, the retina could not be viewed or only to a limited extent.

The unique visionBOOST improves the view of the patient's retina up to 20 %.

*Data on file.

Lighter. Brighter. Better.

smooth
SURFACE

Durable faux leather padding

Comfortable and easy to disinfect

Practical, cable-free headband

Maintenance-free and easy to disinfect thanks to smoothSURFACE

Ultralight lithium polymer battery

Operating time of up to 8 hours depending on illumination intensity

Yellow, blue or red-free filter

to adjust to diagnostic needs

Ridge-free, easy to disinfect surfaces

thanks to smoothSURFACE

WE KEPT THE BEST AND PERFECTED THE REST!

Highly comfortable, the HEINE OMEGA 600 delivers a class of technological innovation.

Intuitive locking of the optics unit

Simply adjust height, distance and angle

Up to 20 % better view in media opacities with visionBOOST

LED^{HQ} light as you and your patient need it: from 3 to 100 %, or even up to 245 % for cataract examinations

High durability due to the sealed optics unit

Easy to disinfect thanks to smoothSURFACE

Better view due to non-reflective front glass

Optimized for our unique, maintenance-free LED^{HQ}

Best possible 3D imaging for any pupil size and peripheral views

Thanks to the stereoscopic adjustment technology

You can only diagnose what you see.

MOST PRECISE DIAGNOSTIC, UP TO THE FAR RETINAL PERIPHERY

- ▶ Significantly better diagnostic due to unique visionBOOST – even in dense cataracts
- ▶ Sharpest fundus image due to superior glass optics
- ▶ Brightest fundus image with true colour rendering thanks to our unique LED^{HQ} – now in even more natural colours
- ▶ Best 3D imaging due to our unique stereoscopic adjustment technology
 - ▷ in dilated and undilated pupils
 - ▷ even with prematures and newborns

LIGHTEST HIGH-END INDIRECT OPHTHALMOSCOPE WORLDWIDE

- ▶ Best wearing comfort
- ▶ Personalized fit
 - ▷ Ergonomic positioning of controls and levers
 - ▷ Brightness control position adaptable for right- or left-handed users
 - ▷ Flip-up function for more convenient patient interactions [01]

[01]

We don't measure durability in years. But in decades.

LONG-LASTING INVESTMENT THANKS TO ITS ROBUST DESIGN

- ▶ Maintenance-free, dustproof optics
- ▶ Legendary HEINE durability
 - ▷ optics firmly mounted on an aluminium frame
 - ▷ high quality materials
 - ▷ 100 % Made in Germany
 - ▷ unique thermal management of LED^{HQ}
- ▶ 5-year guarantee on material, processing and construction*

EASY AND EFFECTIVE DISINFECTION THANKS TO smoothSURFACE

- ▶ No openings
- ▶ Integrated electronics

OMEGA 600 charging set:

CC1 charging case, CB1 charging battery	X-000.99.090
---	---------------------

*Eyepieces: To best accommodate your view, you can exchange the initially mounted eyepieces +2D with the neutral lenses 0D (supplied with the instrument).

THREE WAYS TO CHARGE THE BATTERY

E4-USBC power supply with cable [04]

CW1 wall charger [05]

CC1 charging case [02]

Quality made in Germany.

We live and breathe quality. In everything we do. Every product we make. Every lens we polish. Every screw we tighten. Every optic fiber we bundle. Always. Every day.

The durability of our primary diagnostic instruments is legendary. Every single instrument is the result of decades of product development, continuous improvements, production and a 100 % quality control in our own facilities. We make certain that our high expectations of quality are maintained.

It is how we ensure that our high-end products meet our claim of providing the most accurate and earliest possible diagnosis.

No more, no less.
